

Project Development Phase

Performance Testing – Flow Execution & Task Creation

Date	02 October 2026
Team ID	
Project Name	Streamlining IT Procurement: Automating Standard Laptop Orders with Flow Designer
Maximum Marks	10 Marks

1. Test Objective

To measure how accurately and efficiently the ServiceNow Flow Designer flow "Standard laptop task" creates a configuration catalog task for each approved Standard Laptop request, and to confirm that every task is assigned to the Hardware group with the correct short description and approval value.

2. Test Environment

Component	Details
Platform	ServiceNow instance (Service Catalog, Flow Designer, Maintain Items)
Catalog item	Standard Laptop (Service Catalog > Hardware)
Flow	Standard laptop task (Application: Global, Run as: System User)
Trigger / Action	Service Catalog trigger / Create Catalog Task
Source record	Requested Item (sc_req_item)
Target table	Catalog Task (sc_task)
Assignment group	Hardware

3. Flow Execution & Task Creation Performance Results

Each run was executed by ordering the Standard Laptop and approving the request. Counts are taken from the Flow Designer Executions list and the Catalog Tasks section of the Requested Item.

Run	Scenario	Orders Placed	Approved	Flow Runs	Tasks Created	Errors	Task Creation Time
1	First order of Standard Laptop and approval	1	1	1	1	0	1 Second
2	Second order by another requester	1	1	1	1	0	1 Second
3	Three orders approved one after another	3	3	3	3	0	1 Second

4. Performance Parameters

S.No	Parameter	Values	Screenshot / Evidence
1	Flow activation	Flow "Standard laptop task" saved and activated with the Service Catalog trigger	Flow Designer – flow status Active
2	Flow assignment	Flow attached to the Standard Laptop item through Maintain Items > Process engine	Standard Laptop item – Process engine
3	Flow execution success rate	5 of 5 flow runs completed with state Completed; 0 errors	Flow Designer – Executions list
4	Task accuracy	5 catalog tasks created with short description "Laptop need to Configured", Assignment group Hardware and Approval Approved	Requested Item – Catalog Tasks section
